# PLATFORM BASED PROGRAMS

## *What is the difference?*

### Reimagined Online Learning

An instructional design framework designed to be highly engaging & grounded in content that is real world & authentic.

### Social and Collaborative

Learners thrive in an environment where they can learn from one another. Weekly team meetings & discussion threads add the power of social learning.

### Engaging & Personalized

**The Impact Meter**, a gamified measure of participant engagement with the course content and with each other that also engenders friendly among members of a learning group. (CCL Platforms)

**The Skill Tracker**, a numerical measure and graphical representation of the degree to which participants engage with and practice the course skills. (CCL Platforms)

### Rich Instructional Model

Featuring Interactive learning activities including video, skills practice, self assessments & reflective journaling.

### Sharable & Saveable

Notes, Highlights & Takeaways enable learners to capture & share content (including snippets of video transcripts) then assemble and save to a personalized notebook of course takeaways.

### Secure Learning

A private, walled garden environment allows participants to safely access personal & company specific topics.

# LIVE ONLINE PROGRAMS

## *What is the difference?*

Highly interactive program designed for online delivery.  
Gives most close to classroom experience.

Facilitated 'live online' by an experienced leadership faculty member.  
Unique blend of online facilitator and online producer for the delivery.

Ideal for participants working from remote locations.

Program is split in blocks of 1.5 to 3 hours, that are scheduled in agreement with the client.

Center for Creative Leadership researches show that Live Online programs have a similar impact as classroom programs.

Provider's original digital certificate is provided after the program.
